

Rear View IP Camera

CEN706 CAMERA SPECIFICATION

Overview

The CEN706 is a high-definition IP/Network 1080P Rear View Camera designed to provide crystal clear video footage of the vehicle's rear. However, due to latency issues, it is not advised to use this camera in conjunction with the driver's monitor as a reversing aid.

Product Features

- Metal-cased with fixed lens
- Resolution 1920H*1080V
- Low power consumption
- IR distance 10 meters
- IP67 waterproof

Specifications

Model: CEN706

December	
Recording	
Resolution	Resolution 1920H*1080V - 25/30FPS
TV System	PAL/NTSC (optional)
Image Sensor	3518EV200+SC1135
Pixel	1280*960
Illumination	0 Lux (IR LED On)
Video / Audio	
Video Format	H.264
Video Bit Rate	128Kbps~8Mbps
Audio Processing	G.711
Protocol	
Network Protocol	TCP/IP, HTTP, FTP, DHCP, DNS, DDNS, RTP,RTSP, RTCP, PPPOE, NTP, SMTF
Power Related	
Power	DC-12V 1A
Consumption	Max 3W
Network	
Power Over Ethernet	Optional
Camera Parameters	
Mirror	Available
Infrared Cut-filter Removal	N/A
Infrared LED	30 LEDs, 940nm
Lens	2.5mm, 2.8mm, 3.6mm and 6mm lens are available

General Specifications	
Dimensions	108.5(L) x 67(H) x 80 (W) mm
Net Weight	680g
Running Environment Temperature	-20 ~ + 50 ° C
Storage Temperature	-20 ~ + 65 ° C
Humidity	20 to 80%
